ORGANIGRAM OF UN-HABITAT

IMPLEMENTING THE NEW URBAN AGENDA

UN development system-wide reforms put a strong focus on

- country-level presence and delivery on the ground
- regional level leadership and support to country teams
- Expanding role in **HUMANITARIAN** response and recovery
- A growing niche to support the SG “**SUSTAINING PEACE**” Agenda through Urbanization

Regional and country offices’ functions
are becoming more and more vital.

Project-driven approach at the regional and country levels requires **integrating normative and operational elements:**

- Projects apply the normative issues of UN-Habitat through operational activities.
- Normative products need to be deployed, tested and verified through real field operations.
- Most projects have the potential to demonstrate desired synergy, leading to efficiency gains and integration of the range of tools available to the organization.

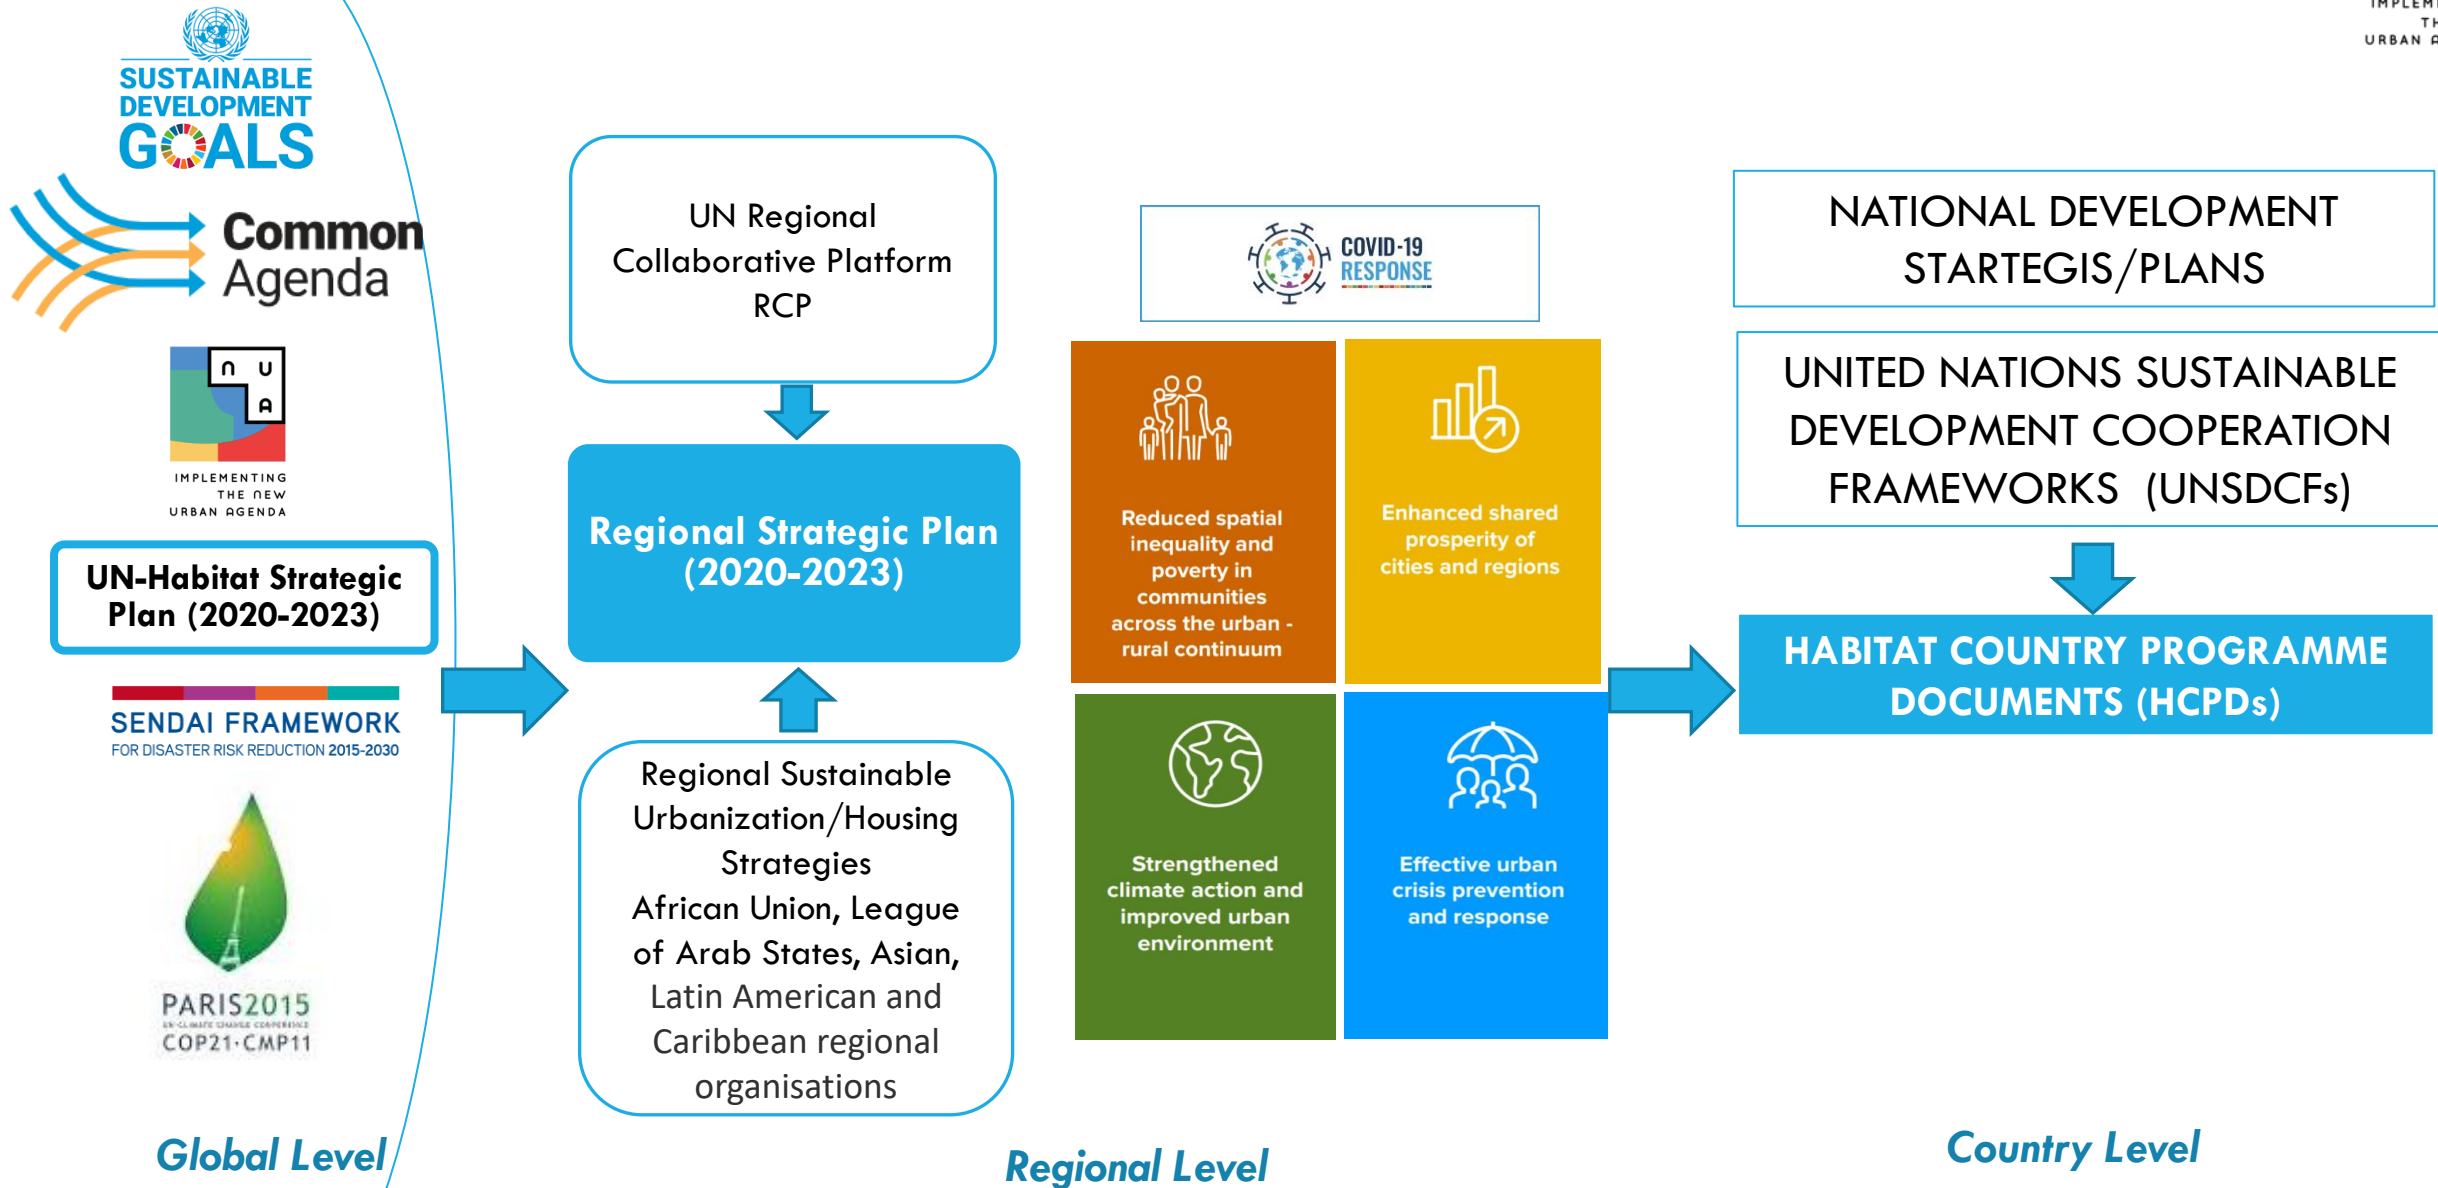

Maintaining that complementarity ensures attractiveness of UN-Habitat's work

- the normative elements should facilitate policy development and programming at both headquarters and country-levels
- technical cooperation (much sought by donors and beneficiary governments) should inform further norms, policies, standards and framework development

* The above is not necessarily a linear process. Overlap among some steps may be necessary to ensure optimal preparation.

* The assumption for this diagram is that the cooperation framework is for a five-year period. This could be different per country.
