5. Fund balances and reserves

5.1. Core Funds

Total core fund balances and reserves at the end of the reporting period amounted to \$17.6 million representing \$2.0 million foundation general purpose and \$15.6 million programme support. No fund balances are realised for regular budget.

5.1.1. Foundation general purpose fund balances

Total fund balances of \$2.0 million include a mandatory reserve of \$4.6 million. This means that UN Habitat has exhausted its spendable fund balance as at the end of the second quarter.

The negative balance of \$2.6 million is temporary and is due to a timing difference as the forecast contributions from Member States and cost recovery revenue is expected to guarantee non-expenditure of the mandatory reserve. However, should the respective Member States not pay the contributions, Management will request the policy organs for authorisation to spend part of the mandatory reserve.

5.1.2. Programme support fund balances

The Programme support fund balances of \$15.6 million include a mandatory reserve of \$2.9 million. Spendable fund balances available at the end of the period amount to \$12.7 million.

5.2. Ear-marked Funds:

Total ear-marked fund balances and reserves at the end of the reporting period amounted to \$369.8 million representing \$105.5 million for foundation special purpose and \$264.3 million for technical cooperation.

5.2.1. Foundation special purpose fund balances

The Foundation special purpose fund balances of \$105.5 million include a reserve of \$4.0 million. Spendable fund balances available at the end of the period amount to \$101.5 million.

5.2.2. Technical cooperation fund balances

The Technical cooperation fund balances of \$264.3 million include a reserve of \$11.4 million. Spendable fund balances available at the end of the period amount to \$252.9 million.

6. Conclusion

A summary of the revenue, expenses, fund balances and reserves is provided in Annex A, while the comparison of actuals and budget is shown in Annex B. Details of non-earmarked and earmarked contributions are given in Annexes C to F.

The financial position of the Foundation General Purpose remains in dire need of a cash injection. While the forecast shows that the mandatory reserve is likely to be maintained, any failure to realise the expected contributions from the respective Member States is likely to cause management to approach the policy organs for authorisation to spend part or all of the mandatory reserve. Meanwhile, in order to alleviate the negative effect of lack of cash in this fund, management may need to arrange a cash loan from other funds that have adequate cash resources.
