#### **UN-Habitat Global Presence 2021**

A **Strategic Direction** and **guiding principles** for realigning and strengthening UN-Habitat's global presence to maximize impact

A Regional Architecture Strategy aligned with the UN Development System and wider reforms, that supports implementation of UN-Habitat's Strategic Plan, and is tailored to meet demand at the country level to focus UN-Habitat's presence where it is most needed.

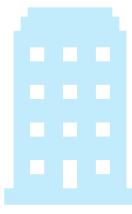

### Liaison Office

- Head of Office: determined by scope & range of responsibilities & functions of the office
- Constitutive instrument: HCA or other appropriate agreement(s)
- Support the agency's information and advocacy work, including participation in fundraising campaigns
- Liaison Offices require predictable funding sufficient to support the mandate of the specific office, ideally from varied sources, including core non-earmarked funding

## **Regional Office**

- Head of Office: Regional Representative (D1)
- Constitutive instrument: Host Country Agreement (HCA)
- Promote the agency's mandate in regional platforms; ensures coordination at the regional level and resource mobilization
- Regional Offices require consistent funding sufficient to support their multi-faceted mandate, ideally from varied sources, under multi-year renewable commitment(s).

## **Typologies of presence**

# **Country Office**

- Head of Office: P-5/P-4
- Constitutive instrument: HCA
- Oversees the implementation of a designated country programme, working directly with the government's central organs and sectoral ministries
- Country Offices require financial and human resources necessary to manage and implement multiple projects/ programmes simultaneously.

### **Subregional Office**

- Head of Office: P-5
- Constitutive instrument: HCA; separate agreements covering multiple countries
- Oversees and provides support for programmatic activities in the host country, as well as within a defined group of neighbouring/related countries with significant needs
- Subregional Offices require financial and human resources necessary to manage and implement multiple projects/ programmes simultaneously in multiple countries, with funding ideally diversified between one or more MS and other sources.
