

UN-HABITAT

Agenda item 6:

Preparation of the UN-Habitat Strategic Plan: 2026 – 2029

Executive Board of UN-Habitat: First session for the year 2024
6 to 8 May 2024

Guiding principles

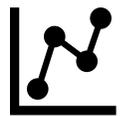

Ambitious, relevant, and responsive: defining the role of UN-Habitat in the UN adding value, and responding to the needs of the Member States;

Focused and Prioritized: addressing reasonable and workable number of relevant priority issues articulated as challenges

Flexible and adaptable: allowing for flexibility and adaptability to respond to the Member States' demands in specific contexts

Evidence and knowledge-based: informed by data, scientific research, and experience by UN-Habitat and other partners and stakeholders;

Manageable, realistic, effective, and measurable: clearly structured in measurable objectives unambiguously assigning responsibilities for attaining them.

Articulating emerging priorities for impact

-  **Continuity and foresight:** retaining successful and relevant legacy themes, keeping proven impact, experience, and existing capacity and attending to the rapid changes in the world, identifying competences to be developed and capacity to be built;
-  **Unique proposition and added value:** engaging in the field of activities where no other multilateral actors engage, empowering UN-Habitat to build on its comparative advantages, and identifying where UN-Habitat can “add value” with its experience and expertise to the work of other multilateral actors;
-  **Globally relevant, locally applicable:** proposed interventions of UN-Habitat address articulated global priorities translatable to the diverse contexts of the regions and countries to respond to the requests of the Member States.
-  **NEW: Urbanization and human settlements:** addressing urbanization at a national scale as e.g. system of human settlements and working with individual human settlements;

Foundations for priorities for review of
Member States

- ⊛ access for all to adequate, safe and affordable **housing**
- ⊛ inclusive urban **prosperity and finance**
- ⊛ effective climate action and **environmental sustainability**
- ⊛ **multilevel governance and localization** of the SDGs

- ❖ Urban planning and sustainable infrastructure
- ❖ Human settlements resilience framework for early warning, foresight, risk reduction, crisis response, and post-crisis recovery and reconstruction

Recent progress: new elements since
Executive Director's report

OIOS conclusions relevant to the new Strategic Plan:

- stronger focus and prioritization is needed;
- current outcomes capture all key aspects of UN-Habitat's work without a clear hierarchy;
- better identification and articulation of the main (negative) trends where UN-Habitat could support national and local governments;
- simpler structure of Strategic Plan needed;
- clearer corporate guidance on how it can be implemented at the global, regional, national and subnational level.

Purposes of a strategy for UN-Habitat

From the **UN-Habitat mandate** perspective: select and articulate priority challenges in society, formulate attainable goals for the medium-term period, define actions to be taken by the UN-Habitat in the multi-lateral system to attain the goals;

From the **project-funded entity** perspective: profile UN-Habitat as feasible actor which can address issues prioritized by beneficiaries and donors, set goals fundable by the donors, and create flexible organizational structure of capacities and competences to respond to opportunities of getting its work funded;

From the **UN Secretariat entity** perspective: provide guiding structure and articulation to the work of UN-Habitat, approved by the Member States - to inform structuring the work in sub-programmes.

- ✓ Once **priorities** have been reconfirmed by the Member States, **articulate them as challenges to be resolved**, where **UN-Habitat has a role**
- ✓ Articulated priority issues would be **translated into attainable strategic goals** for the period, which will **clearly determine the role of UN-Habitat** and guide its activities in attaining the goals
- ✓ **Strategic goals will be supported by planned action with measurable objectives**, which will also serve in monitoring progress of attaining the Strategic goals

OUR VISION e.g., just and resilient human settlements in harmony with nature

OUR SCOPE FOR 2026-29 Priorities articulated as **issues or challenges** to the global society

OUR ROLE What can UN-Habitat do to **address those issues** in the multilateral system
